

SX Kinetics provided coalescer medium for the recovery of entrained organic phase from indium solvent extraction solutions. The coalescer media is made up of bundles of monofilament coalescer pads attached to a FRP support frame.

Item: Monofilament Coalescer Medium

Project: sxk-40

Client: Falconbridge Kidd Creek

Location: Ontario, Canada

Capacity: 50 L/min aqueous flow

Coalescers can be used to recover organic entrainment from raffinate, strip liquor, and industrial wastewater.

Items Provided:

- Monofilament coalescer media with FRP support frames.
- Instructions for on site installation
