

SX Kinetics designed and manufactured two coalescers for a zinc solvent extraction and electrowinning project.

Item: Coalescers
Project: sxk-69
Client: Metals Finance
Location: Hartford, IL, USA
Capacity: 4 L/min aqueous flow

Coalescers can be used to recover organic entrainment from raffinate, strip liquor, and industrial wastewater.

Items Provided:

- Coalescer and after-settler combined into one unit
- Monofilament coalescer media with perforated polypropylene support
- Aqueous and organic separation chambers for continuous removal of entrainment
