

SX Kinetics designed and manufactured this bench scale leach pilot plant for the continuous production of SX Feed solution.

Item: Laboratory Leach Pilot Plant
Project: sxk-45
Client: Moscow State Institute of Steel and Alloys (Technological University)
Location: Moscow, Russia
Capacity: 50 to 200 mL/min
Stages: 4
Temperature: 20 to 80 °C
Drive: variable speed

Items Provided:

- Feed preparation tank with tank cover, baffles, and over head agitator
- Variable speed slurry feed pump
- Four cascading leach vessels with covers, baffles, and over head agitators
- Immersion heaters with temperature controllers
- Reagent delivery burettes Teflon stopcocks incorporating needle metering valves
- Reagent feed tank with metering pump
- Discharge tanks with tank covers
- Completely assembled and factory tested prior to shipment
